### o ICOM

#### **DUAL BAND FM TRANSCEIVER**

# IC-2720H

#### Twice the versatility, twice the fun!

#### V/V, U/U simultaneous receive capability

The IC-2720H is a unique dual band mobile, providing VHF/VHF, UHF/UHF simultaneous receive capability along with VHF/UHF full duplex operation. Simple touch of a button changes the transmit band.

#### Independent controls for each band

Operating two bands simultaneously is very simple with Icom's symmetric layout with a wide LCD display showing both band settings in an easy to read side by side format. The IC-2720H provides separate tuning, volume, squelch knobs and function buttons for the left and right side bands. Also, listen to both bands independently through separate left and right band audio jacks.

#### Dynamic Memory Scan (DMS)

With 212 memory channels, Icom's exclusive Dynamic Memory Scan system gives you flexibility

over your scanning lists, fully customizable in 10 banks.

> Selectable Green and Amber Display.

Photo shows combined controller/main unit setup using optional MB-85.

#### Wideband receiver

Keep on top of what is happening with the IC-2720H's wideband receiver. Covering from 118–549 and 810–999MHz\*, you will be able to listen to almost any communications! (\* Receiver range differs depending on version)

#### HM-133, remote control microphone

The lcom exclusive "Hot keys" (F1/F2) memorize the most commonly used transceiver settings.

#### **DTCS and CTCSS**

The IC-2720H incorporates 104×2 DTCS and 50 CTCSS tone codes along with a tone scan function. Don't miss out on communications because of not having the proper type of "tones"! The "pocket beep"feature gives you an audible and visible indicator of an incoming call.

HM-133

#### Compact, remote controller

The controller with the 3.5m (11.5') separation cable is an easy to install two pieces configuration. This configuration offers the flexibility of mounting the controller while placing the main unit in an outof-the-way location without any additional cost. Microphone jacks are mounted both on the controller and main unit of the radio!

#### And more...

- 10dB RF attenuator Selectable squelch delay
- 9600bps packet data terminal (mini-DIN 6-pin connector)
- Optional MB-85 allows you to mount the controller to the main unit
- 14 DTMF memory channels (24 digits)
- Sub band auto mute function MOS-FET power amplifier
- Weather Alert\* Auto repeater function\*
- Wide/narrow channel spacing\*
  - (\* U.S.A. version only)

#### **OPTIONS**

#### MOUNTING BRACKETS

#### •MB-84 CONTROLLER BRACKET

Mounts the remote controller in a convenient location for operation with the controller detached. •MB-85 COMBINATION BRACKET

Mounts the remote controller to the main unit. 20cm (7.87in.) separation cable is supplied

•MB-65 MOUNTING BASE

Mounts the remote controller with the MB-84. Adjustable angle and direction for optimum positioning.

•**MB-17A** MOBILE MOUNTING BRACKET The main unit is easily attached and removed.

#### MICROPHONE ACCESSORIES

- •HM-118N HAND MICROPHONE Regular hand microphone.
- •HM-118TN/TAN DTMF MICROPHONE DTMF microphone.
- •HM-133 REMOTE CONTROL MICROPHONE Full remote control microphone with keypad backlighting. Same as supplied.
